

MRS. FROMIN'S BABY

**INFANT THAT WAS SAID TO BE
FIVE INCHES LONG WHEN BORN**

**In the Short Space of Ten Days
Achieving the Altitude
of a Foot.**

New York Star.

Mrs. Fromm's latest baby—for the lady has had eight of them—is the talk of the neighborhood. It was born about a week ago at No. 438 West Fifty-fourth street, and became famous very hardly two days old. It was heralded as the latest wonder, and solemnly asserted that at the time of its birth it was but five inches in length and weighed but three-quarters of a pound.

A reporter of the *Star* was sent last evening to make investigations that might approximately determine the magnitude of Mrs. Fromm's baby. Before he had got within a block of the humble home of its parents the earnest discussion of the prodigy's wonder-

characteristics was heard on every side until the walking match seemed to have been utterly eclipsed.

"Does Mrs. Frömin live here?" asked the reporter of a group of matrons sailing themselves in front of a low frame house.

"Do you want to see the baby?" said they, by way of answer. The reporter confessed that he did.

"Walk right in," said they. The reporter climbed a flight of crazy stairs and was ushered into the domain of a woman who was small and old, the majority being of the gentler sex.

"I suppose you came to see the baby?" said a matronly young woman, who

"You are right, madam. I want to see the wonderful baby."

"Here he is," said she, and the reporter was led to one corner of the room, where another young woman sat with a bundle of small clothes in her arms. "While the reporter was seating himself, the young woman began to undo the bundle, whereat a thrill issued from the depths of the clothes which was so strong that the reporter already began to doubt the truth of the stories that had first called attention to the small stranger. Finally there appeared first drawn in the depths of the bundle a small white baby, a very red and much distorted face.

"Madam," said he to the young woman,

"But he's grown," said she, disappointedly, and she appeared to be disappointed that the infant was not smaller than she expected. She then removed some more wraps till she reached the depth of several inches and showed to the reporter the baby's legs, which were really very small and very red.

"Why, it's at least a foot long," said the reporter.

"But he's nine days old," said the mother, "and babies grow very fast for you know." One of the male visitors who had a pretty good sized hand, then measured the midget with his open

said he. The reporter then appealed to an elderly female visitor, who did not hesitate to say that she had seen just about as small a baby before. "Yes," said another woman, "there was my Mary Jane. She wasn't much bigger when she was born."

The reporter then visited Dr. Dew of Fifty-fourth street and Eighth avenue, who, as Mrs. Fromin said, had attended the lady during her sickness. "Really, Doctor," said the reporter, "is this such a small baby?"

"Well, the fact is," said the Doctor laughing, "it's a pretty small specimen but I have seen just as small. People

have been looking to see the funny side of a body hit upon the plan of charging an admission fee. It's very funny about the stories that got abroad concerning that baby. They say that one of Barnum's agents was there the next day to see it, and offered \$5,000 for it in case it didn't grow any larger. The baby, as far as I can see, although small, was as fully developed at its birth as most children. It has developed a good appetite, and may grow to be as large as you are."

CURRENT NOTES.

Rowell made about \$3 every minute of his walk.

It was "Yankee Doodle" and Grant last Sunday, it was "God save the Queen" and Rowell to-day.

Senator Kernan has announced that he will speak for Robinson on every night of the campaign, after October 10.

Ex-Secretary of State McLinn, of Florida, one of the members of the famous Returning Board of that State, is dead.

General O. O. Howard's daughter, Miss Grace, was married at Vancouver Barracks a few days ago to Captain J. T. Gray.

Secretary Schurz will be the lion of day at the great Muskogee fair of the Indians in Indian Territory this week. All the chiefs will meet to counsel with him.

Miners on the Comstock have decided not to blow the whistles upon General Grant's arrival at Virginia City, because "Frisco toadyed and tified the old 'un too much."

One of the best bits of current news is that Mrs. Victoria C. Woodhull and Miss (Clavin), the great short-haired, have found husbands in members of the English aristocracy. How many is not stated, but the hope is that London will continue to hold the two ladies for a few years.

Joe Pentz took a rifle to his wedding at Mark's Gap Texas. The sexton tried to persuade him to leave it at the door, but he entered the church, but he persisted in carrying it across his shoulder as he walked with the bride up the aisle to the altar rail. His explanation was that a rival suitor had threatened to shoot him on this occasion and he meant to be prepared for defense.

The Rev. Colin F. McKinnon, D. D., died of paralysis at Antigonish, Nova Scotia, on Friday evening, aged 69 years. Dr. McKinnon was consecrated in 1852 Bishop of the Roman Catholic diocese of Antigonish, which comprises Cape Breton and the three eastern counties of Nova Scotia. Two years ago he resigned his See and was made Archbishop of Antigonish, in partibus infidelium, and has since resided at Antigonish.

Two young men couldn't get the hourly score of the walking match at Niles, a village in the interior of New York State, on Friday, and so to relieve the dullness of the occasion began to play hanting. One of them, named Cuykendall, was at the rope's end when a rather unexpected jerk by his play-fellow sent him spinning up to the beam. Cuykendall regained consciousness yesterday morning, but says he never will play that kind of play any more.

Imprisoned for Twenty-one years in a Pen.

Henderson (Ky.) News.

Twenty-one years ago a man by the name of McCommick, who lives two and a half miles northeast of Sallidville, Hardin county, became insane, and instead of sending him to an asylum his family built a pen eight by ten feet and imprisoned the man in it. The pen situated about thirty feet from the dwelling house, and has neither door, window nor floor. His provisions are pushed through the cracks in the logs. His bed consists of four or five logs extending across the pen at the back end, and the bed clothing consists of one quilt. From the appearance of the inside of the pen one would come to the conclusion that the chickens had roosted over the old man's head. He has been living in this manner twenty-one years, and we are of the opinion that it has been that period since he has washed himself and his too nails are about one inch and a half long. The old gentleman has property enough to support him in some respectable asylum, but other parties are reaping the benefits of the same, and he is imprisoned in an old log pen.

HOSTETTER'S BITTERS

STOMACH BITTERS.

Fever and Ague is most common in the spring, but most severe in the fall and winter. It is strictly a malarious disease, and so surely as the individual who adopts this precaution be exempted from its pains and penalties. And to this its value as a stomachic and anti-bilious agent, and who will venture to gainsay its claims to the first place among the most valuable remedies for sale by Druggists and respectable Dealers generally.

Cuticura

THE GREAT SKIN CURE.

The most Healing, Soothing and Refreshing External Application in the World.

It rapidly heals Ulcers, Old Sores, and Discharging Wounds; Itching Piles and other itching affections that have been the source of a lifetime of suffering; Unpleasant eruptions of the skin, and all affections of the scalp, including Loss of Hair. Nothing like it has ever been known. It is the most intelligent physician. It has swept a host of poisonous remedies out of existence. It is revolutionary in its action, and mode of treatment and succeeds in curing every external affection. At every stage it is ably assisted by CUTICURA SOAP, which is a part of itself medicinally and at the same time the most deliciously fragrant and refreshing Toilet, Bath, and Nursery Soap in existence.

CUTICURA RESOLVENT, a powerful purifying agent and liver stimulant, should be taken to neutralize and resolve away blood poisons, caused by the virus of scrofula, cancer, cancer, malarial or contagious diseases, which maintain and foster diseases, which maintain and foster diseases of the skin and scalp.

SALT RHEUM.

Life a burden from the sufferings caused by this terrible disease.

Messrs. WEEKS & POTTER—Gentlemen: Please accept my most grateful thanks for the great, very great, comfort I have received from the use of your CUTICURA. For the past eight or nine years I have been troubled with that dreadful disease, Salt Rheum.

For months I would be helpless,—my very life a burden to me.

I have used everything in the shape of medicine, both external and internal, but with no effect.

My hands were in a terrible condition, the backs of them being all raw, and I thought I would try CUTICURA.

I tried it, and lo! it was as if a miracle had been performed, for I will take no oath that in three applications, my hands were as smooth as a new-born babe's.

I presume there are hundreds, if not thousands, who know of my case, among whom there may be some who are similarly afflicted, and if so I would earnestly advise him to give CUTICURA a trial.

Yours, very thankfully, A. D. BAKER, Ticket Agent C. & E. R. R. Detroit Junction, Detroit, Mich., January 20, 1879.

Tetter or Salt Rheum

On the hands cured. A grateful letter.

Messrs. WEEKS & POTTER—Gentlemen:—Having been troubled for many years with the Tetter or Salt Rheum, I spent many a hard-earned dollar in the vain hope of curing my Tetter, and thank God, my hands are well. I never had anything do me good like that.

You may put this in the paper and welcome, and may it do some other poor sufferer the same good it has done me. I am well known here, having lived here almost fifteen years and have boarded for a living, and sometimes my heart was sore, thinking I would have to give up altogether with my sore hands, and having a small family to take care of; but oh! thank God, my hands are well, and my return thanks.

Years respectfully, ELIZABETH HUCKLEY, Littleton, N. H., May 30, 1879.

The CUTICURA REMEDIES are prepared by Weeks & Potter, Chemists and Druggists, 300 Washington Street, Boston, Mass., and are for sale by all Druggists. Price of Cuticura, small boxes, 50 cents; large boxes \$1. Resolvent, \$1 per bottle. Cuticura Soap, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.
